Teak Wood (Optional)

Just like the human fingerprints, every teak tree out there is one of its kind. Even within the parameters of any managed plantation environment, no two trees share the same ground or reach for the light in the same way. For that reason, each tree grows and matures in its own unique way with the natural variations and irregularities that give the timber its inherent appeal. With every growth ring, every knot, every graceful ebb and flow of the grain stands a testament to its journey from a young sapling to mature tree – a journey of up to 70 years. But they all have one thing in common, which is to produce one of the finest woods on the planet that you could possibly find.

Water Hyacinth

COLLECTION

This is the very first raw natural material that was used to make the name of the ATC Furniture Corporation to this date. It is our expertise in producing anything relating to water hyacinth from in-house indispensable furniture to home accessories with countless designs, unique colors and hundreds of different applications. Moreover, this sustainable and renewable wicker can bring an outstanding scenery and comforting to your space. To keep the quality in check, ATC Factory operates both as a farming and processing plant so that every finished hyacinth or cane furniture will be precise, even with the smallest detail to our own standards. Therefore, our products are incomparable to other competitors in the market.
